

# WELDING POSITIONERS

Positioners provide a versatile and productive means for placing jobs in the 'downhand' position. We deliver a complete range of high quality portable welding positioners designed to optimize your welding procedure.

These meet your specific welding and automation needs by rotating your workpiece at your desired angle and speed.

Designed for rotation of lighter work pieces. The Positioners offers manual tilt adjustment, high frequency protection, and heavy-duty foot control switch.

Models are available in 20 Kgs, 60 kgs and 100 kgs capacity.

The positioners tables rotate at accurate and constant variable speeds and tilt through 135° with a high C.G. load rating and can be conveniently used for circumferential welding, cladding, downhand position welding and assembling of intricate assemblies and many more applications.

**Welding Automation Range of Products :** • Welding Gun • Oscillator ( weld weaver ) • Cold wire feeders • Seam trackers • AVC • Cameras and video displays • X-Y slides ( manual and motorized ) • Welding turntables • Welding positioners • Welding Turning Rolls • Welding lathes • Column and boom (manipulators)
