

WATER CHILLER CUM RE-CIRCULATOR

Special Features:

- Installed with imported compressors, highly efficient condensers and evaporators, excellent cooling, quiet operation and low electricity consumption.
- Maximizes torch productivity.
- Cooling capacity for cutting torches up to 800 amps and welding torches up to 600 amps.
- Easily mounted on trolley.
- On – off front panel switch.
- Visible temperature indicator.
- Available for Plasma cutting machine, Plasma welding machine, PTA welding machine, MIG welding machine.

Specifications:

Capacity	1 Ton	2 Ton	3 Ton	5 Ton
Flow Rate	5 lpm	5 lpm	5 lpm	5 lpm
Outlet Temperature	10 – 25 °C (Adjustable)	10 – 25 °C (Adjustable)	10 – 25 °C (Adjustable)	10 – 25 °C (Adjustable)
Input	4.5 VAC / 3-Ø / 0.5 Hp	4.5 VAC / 3-Ø / 0.5 Hp	4.5 VAC / 3-Ø / 0.5 Hp	4.5 VAC / 3-Ø / 0.5 Hp
Tank	25 ltrs	60 ltrs	200 ltrs	300 ltrs
