

HARDFACING / CLADDING JOB WORKS

Arcraft offers hardfacing & cladding job work for automated weld repairs.

We have,

- In house facilities for trial and job work.
- Column & Boom, Oscillator, Positioner, Welding Lathe, MIG / TIG / PLASMA / SAW Welding Power source available.
- NDT facilities for MPT, LPT, VT, UT available.
- Trained Welding Engineers, Technicians and ASNT Level II personnel for NDT and quality test.

Plasma Transferred Arc (PTA) Welding

Bore Welding

Plasma Welding

Micro Plasma Welding

TIG Welding

Micro TIG Welding

Our Features:

- Availability of expertise: Our factory expert is based in the Mumbai, so we are well connected through transport to support equipment from coast to coast, and overseas.
- Test experience: We have experience testing and installing PTA machine, Hardbanding machine, Precision Welding (Micro TIG, Micro Plasma Welding), Welding Automation with many new systems.
- Weld process development experience: We have experience with weld process development resulting in optimum parameter selection for doing all types of welding job work.
- Equipment optimization skills and experience: We can help you optimize equipment selection for your part applications.
